

# Call for Projects 2025 of the Mitigation Action Facility

**[Title of this application]**

## Useful tips & links

When filling out the form in the Open Application Platform (OAP), please consider the following:

- Do not copy-paste tables into the OAP text fields.
- Do not copy-paste graphs into the OAP text fields.
- Avoid using special characters (e.g., ‘, “, :, ü) as they may not be displayed correctly.
- Bullet points/numbering will not be displayed correctly, as the system does not capture paragraph breaks.
- Formatting (e.g., highlighted text; text in bold, italics, or underlined; subscript, superscript) will not be displayed.
- Each space is counted as one character; paragraph breaks are not counted as characters, as they are not captured by the system and are not displayed.

In case of any technical difficulties, feel free to reach out to [oap@mitigation-action.org](mailto:oap@mitigation-action.org) (<mailto:oap@mitigation-action.org>).

An empty Project Concept template (for information purposes only) can be found here ([https://mitigation-action.org/wp-content/uploads/Concept-Template\\_CfP2025\\_Final\\_OAPv2.pdf](https://mitigation-action.org/wp-content/uploads/Concept-Template_CfP2025_Final_OAPv2.pdf)).

## General Information Document (GID)

Read the General Information Document (<https://mitigation-action.org/wp-content/uploads/General-Information-Document-GID-%E2%80%93-Call-for-Projects-2025.pdf>) (GID) to learn more about the Call for Projects 2025.

Have you read the General Information Document (GID)? \*

multiple selections allowed

Yes, I have read the General Information Document (GID) and understand the conditions, process and criteria for assessing and selecting projects under the Mitigation Action Facility Call for Projects 2025.

*Mandatory-Field*

## 1 General Information

### 1.1 Project data

Project title \*

Project titles should be as short as possible and summarise the actions of the project in relation to the strategic objectives of the Mitigation Action Facility. Country names should not be used in titles.

*Detailed guidance: - Clear reference to the project objectives, clearly stating what the goals and aims are.- Maximum number of characters including spaces (200).- No country/place names in the title.- If necessary, a keyword can be placed before the title to help clarify the objectives (i.e. Resource efficiency: construction material transition for affordable housing)- Avoid vague words in project titles such as 'promote'.- Convert complicated sentences into clear descriptions.- Allow for abbreviations.*

*Mandatory-Field; Maximum Character: 200*

Country (or countries) of implementation \*

multiple selections allowed

Afghanistan  Angola  Bangladesh  Benin  Bhutan  Burkina Faso  Burundi  Cambodia  Central African Republic  Chad  Comoros  Democratic Republic of the Congo  Djibouti  Eritrea  Ethiopia  Gambia  Guinea  Guinea-Bissau  Haiti  Kiribati  Lao People's Democratic Republic  Lesotho  Liberia  Madagascar  Malawi  Mali  Mauritania  Mozambique  Myanmar  Nepal  Niger  Rwanda  Sao Tome and Principe  Senegal  Sierra Leone  Solomon Islands  Somalia  South Sudan  Sudan  Tanzania  Timor-Leste  Togo  Tuvalu  Uganda  Yemen  Zambia  Democratic People's Republic of Korea  Syrian Arab Republic  Algeria  Belize  Bolivia  Cabo Verde  Cameroon  Congo  Côte d'Ivoire  Egypt  El Salvador  Eswatini  Ghana  Honduras  India  Indonesia  Iran  Kenya  Kyrgyzstan  Micronesia  Mongolia  Morocco  Nicaragua  Nigeria  Pakistan  Papua New Guinea  Philippines  Samoa  Sri Lanka  Tajikistan  Tokelau  Tunisia  Ukraine  Uzbekistan  Vanuatu  Viet Nam  West Bank and Gaza Strip  Zimbabwe  Albania  Argentina  Armenia  Azerbaijan  Belarus  Bosnia and Herzegovina  Botswana  Brazil  China (People's Republic of)  Colombia  Costa Rica  Cuba  Dominica  Dominican Republic  Ecuador  Equatorial Guinea  Fiji  Gabon  Georgia  Grenada  Guatemala  Guyana  Iraq  Jamaica  Jordan  Kazakhstan  Kosovo  Lebanon  Libya  Malaysia  Maldives  Marshall Islands  Mauritius  Mexico  Moldova  Montenegro  Montserrat  Namibia  Nauru  Niue  North Macedonia  Palau  Panama  Paraguay  Peru  Saint Helena  Saint Lucia  Saint Vincent and the Grenadines  Serbia  South Africa  Suriname  Thailand  Tonga  Türkiye  Turkmenistan  Venezuela  Wallis and Futuna

*Mandatory-Field*

---

Sector focus \*

Please select one of the **priority** sector your project is linked to.

only one selection is allowed

Industry

Transport

Energy

*Mandatory-Field; Maximum Character: 100*

---

Cross-sector project

If you apply with a cross-sector project, please indicate the other sector your cross-sector project is linked to.

---

Envisioned funding volume from the Mitigation Action Facility for project implementation \*

Indicative grant funding (in total for the financial and technical components) requested from the Mitigation Action Facility for the project implementation. FC + TC should equal total funding.

EUR 5 - 25 million

in EUR

*Minimum Value: 5000000; Maximum Value: 25000000; Float number; Mandatory-Field*

---

Total Amount for Financial Component in EUR \*

in EUR

*Maximum Value: 25000000; Float number; Mandatory-Field; Minimum Value: 0*

---

Total Amount for Technical Component in EUR \*

in EUR

*Maximum Value: 25000000; Float number; Mandatory-Field; Minimum Value: 0*

Envisioned duration of the project implementation \*

Please note that the implementation should not exceed 5.5 years (= 66 months).

36-66 months

in months

*Minimum Value: 36; Maximum Value: 66; Whole number/integer; Mandatory-Field*

Resubmission \*

Is your application a resubmission from previous Calls of the Mitigation Action Facility?

If 'yes', please specify from which Call.

*The response has no influence on the assessment of the application.*

only one selection is allowed

No

Yes

*Mandatory-Field; Maximum Character: 100*

## 1.2 Your project in a nutshell

What is the project about? \*

In a single sentence, please describe what the project aims to do.

*For example: The project supports country X in installing at least 50 MW of roof-top PV systems in low-income households and in promoting other renewable energy applications in the housing sector.*

*Maximum Character: 200; Mandatory-Field*

---

### **1.3 Changes by the end of the project**

What will have changed by the end of the project? \*

Please describe what the project will have changed by the end of its implementation.

*For example: Prices for small PV systems in country X will have decreased due to wide availability and enhanced competition in the PV market, making small PV systems more affordable for certain low-income households without further financial support. Meanwhile, the government will have expanded the coverage of its support program to include additional RE applications and target groups.*

*Maximum Character: 400; Mandatory-Field*

---

### **1.4 National ministry / ministries**

*This group of questions can be repeated 2 times*

#### **National line ministry**

*Extend this list as appropriate. Information on up to two national line ministries may be provided.*

Name of the responsible national line ministry \*

Please indicate the name of the national ministry responsible for the sector of the proposed project.

*For other relevant Project Partners, please refer to Section 1.6.*

*Maximum Character: 100; Mandatory-Field*

---

Department \*

Within this ministry, which department is mostly leading the activities related to environment and climate change?

*Maximum Character: 100; Mandatory-Field*

---

Have any consultations with regard to the project idea been held with the line ministry? \*

If “yes”, indicate what kind of consultations have taken place.

only one selection is allowed

No

Yes

*Mandatory-Field; Maximum Character: 200*

---

*This group of questions can be repeated 2 times*

### **National ministry responsible for the issues of environment and climate change**

*Extend this list as appropriate. Information on up to two national ministries responsible for the issues of environment and climate change may be provided.*

Name of the national ministry responsible for the issues of environment and climate change \*

Please indicate the name of the national ministry responsible for climate change mitigation (incl. coordination of the UNFCCC process)

*Maximum Character: 100; Mandatory-Field*

---

Department \*

*Maximum Character: 100; Mandatory-Field*

---

Have any consultations with regard to the project idea been held with the ministry responsible for issues of environment and climate change? \*

If “yes”, indicate what kind of consultations have taken place.

only one selection is allowed

No

Yes

*Maximum Character: 200; Mandatory-Field*

---

## 1.5 Applicant

### 1.5 Applicant

Please indicate the name of the Applicant.

Name of institution \*

*Mandatory-Field; Maximum Character: 100*

---

Is the Applicant the intended Implementation Organisation? \*

If no, please specify who will be the Implementation Organisation (or is planned to be) and if discussions have already taken place. Briefly explain the relationship between the Applicant and the Implementation Organisation.

only one selection is allowed

Yes

No

*Maximum Character: 200; Mandatory-Field*

---

Contact Person for the Concept - salutation \*

only one selection is allowed

Ms

Mr

Others

*Mandatory-Field*

---

Contact Person - first name \*

Claudia

*Mandatory-Field*

---

Contact Person - last name \*

Haller

*Mandatory-Field*

---

Contact Person - e-mail address \*

claudia.haller@mitigation-action.org

*Email; Mandatory-Field*

---

Contact Person – phone number \*

*Mandatory-Field; Phone / Fax number*

---

Type of institution \*

only one selection is allowed

- International
- National
- Sub-national / Local

*Mandatory-Field*

---

Legal form of institution \*

only one selection is allowed

- Non-governmental organisation (NGO)
- UN organisation
- Financial institution (incl. micro-finance institutions, multilateral/national development banks and private banks)
- Bilateral cooperation agency
- Governmental entity (incl. national ministries)
- Commercial entity
- Others

*Mandatory-Field*

---

Website of the Applicant \*

Please enter a valid web address (e.g. "www.example.com" or "https://www.example.com")

*Mandatory-Field; Website address / URL*

---

Vision, mission and objectives of Applicant \*

Please describe the vision, mission and objectives of the organisation.

*Mandatory-Field; Maximum Character: 500*

---

**Role in the project \***

Please specify the role of the Applicant in the project preparation and project implementation.

*Maximum Character: 200; Mandatory-Field*

---

**Internal capacities of the Applicant (incl. partners)**

This information is relevant for the decision on outline development support by Mitigation Action Facility (see GID (<https://mitigation-action.org/wp-content/uploads/General-Information-Documents-GID-%E2%80%93-Call-for-Projects-2025.pdf>) section 5.1.6.).

To assess your team's readiness for the Outline Phase, we would like to know the following:

*The responses have no influence on the assessment of the application.*

Team members involved in potential Outline development

If the Concept advances to the Outline Phase, how many team members do you anticipate will be involved in the development of the Outline? Please provide a numerical estimate.

*Whole number/integer*

---

Does your team have the expertise to calculate the mitigation potential of the project?

only one selection is allowed

Yes

No

Does your team possess the financial knowledge to design a financial mechanism and business model that addresses key barriers?

only one selection is allowed

Yes

No

---

---

*This group of questions can be repeated 6 times*

### **1.6 Main Project Partners**

List the national/local institutions that will play a leading role in the preparation and implementation of the project.

*Extend this list as appropriate. Information on up to 6 Project Partners may be provided.*

Name of institution \*

*Mandatory-Field; Maximum Character: 100*

---

Type of institution \*

only one selection is allowed

International

National

Sub-national / Local

*Mandatory-Field*

---

Legal form of institution \*

only one selection is allowed

- Non-governmental organisation (NGO)
- UN organisation
- Financial institution (incl. micro-finance institutions, multilateral/national development banks and private banks)
- Bilateral cooperation agency
- Governmental entity (incl. national ministries)
- Commercial entity
- Others

*Mandatory-Field*

---

Website of the Project Partner \*

Please enter a valid web address (e.g. "www.example.com" or "https://www.example.com")

*Mandatory-Field; Website address / URL*

---

Country \*

*Mandatory-Field; Maximum Character: 100*

---

Role of institution in the project \*

*Mandatory-Field; Maximum Character: 200*

## 2 Project Concept

### 2.1 Starting situation

Starting situation \*

Please briefly outline the starting situation: Describe the current environmental and socio-economic conditions that make your project necessary. Explain the key challenges or issues in the project area, including any relevant climate impacts, local vulnerabilities, or specific needs of the target groups and beneficiaries that your project will address. This helps to provide context for why the project is essential and what factors it aims to change or improve.

Key challenges, issues or “barriers” can occur in economic, technical, regulatory, cultural, and structural fields.

*Mandatory-Field; Maximum Character: 2200*

---

### 2.2 Project rationale

Please explain *why* this project is important and how it will address specific needs or issues in the target area. In this section, outline the core reasons for implementing the project, showing how it aligns with local and national priorities and broader climate goals, and demonstrating the expected benefits for the target groups and the environment.

Objectives of the project \*

Outline the project’s main specific and measurable outcome and its outputs. Please describe what will change regarding the starting situation at the end of the project and demonstrate how the project will address the key challenges/barriers.

*(If you’re targeting a piloting modality please, explain what the pilot stage of the project will entail and what scope it will have.)*

*Mandatory-Field; Maximum Character: 1500*

### Scope of the project \*

Please describe the project scope here, which defines *what* the project will cover, outlining the specific activities and boundaries of the project. In this section, explain the main tasks to be undertaken and any limitations, such as geographical areas, timeframes, and resources, to clarify what is included and excluded in the project concept.

In this context, please explain:

- Which (sub-)sector does the project target? How does this relate to the overall GHG emission reduction potential in this (sub-)sector?
- How would the intended scope induce a change towards sustainable carbon-neutral development in the (sub-)sector in the country?

*Maximum Character: 1800; Mandatory-Field*

---

### Target group(s), incl. early Gender Equality and Social Inclusion (GESI) considerations \*

Define the target groups of the project; depending on your project design this can be on an institutional level (e.g. local communities, government agencies and policymakers, educational institutions, youth groups, businesses and industry, NGOs, informal sector) and/or an individual level (e.g. end-users, individual beneficiaries, staff members of your partner ministry, researchers and scientists, etc.).

- Indicate estimated numbers of people and/or other entities targeted by the project.
- Consider specifically the situation of the informal sector as well as opportunities/challenges for promoting gender equality and social inclusion (GESI) both in the technical as well as financial components of the project.
- What will have changed for the target group(s) because of the project? Please explain on a general level as well as regarding the project's contribution to gender equality and social inclusion.

*Mandatory-Field; Maximum Character: 1300*

## 2.3 Proposed mitigation technologies / practices

Proposed mitigation technologies/practices \*

Describe the **mitigation technologies/practices** to be supported.

- Elaborate on technical features (e.g. capacities, size) of the proposed technology/practice. Is the proposed technology/practice available on the national market? If you are piloting a novel technology, please clearly state that, explain the technology and describe experiences with it in the country of implementation and/or globally.
- Are there any experiences and/or pilots regarding the proposed technology/practice in the country where the project is to be implemented? If so, briefly describe these experiences and/or pilots. If there are no experiences in the country of implementation, please explain your assumption why the technology/practice will work in the proposed country of implementation.
- If there are no experiences in the country of implementation, please explain your assumption why the technology/practice will work in the proposed country of implementation. Is the novel technology implemented in other markets and if yes, where exactly? Please share what are experiences and lessons learned, if possible.

*Mandatory-Field; Maximum Character: 2000*

---

Rationale for the selection of the proposed mitigation technology/practice \*

Please explain why the technology/practice is suitable to achieve the desired GHG emissions mitigation effect in comparison to the business-as-usual as well as alternative/competitive mitigation technologies/practices.

*Mandatory-Field; Maximum Character: 1000*

---

## 2.4 Financial mechanism and business case/model

Business case/model related to the proposed technologies/practices \*

Describe the **business case/model** related to the proposed technologies/practices.

- Why and how will the business model work (investments and interest from the private and public sector)?
- How will the funding from the Mitigation Action Facility facilitate and stimulate the development of a market for the proposed mitigation technology/practice? Please relate your response to the key challenges/barriers as explained in section 2.1 and the overall project context.

*Mandatory-Field; Maximum Character: 1250*

---

Supply market and cost of capital \*

Please provide estimated capital expenditures (CapEx) and operating expenses (OpEx) of the proposed technology/practice in EUR and how do they compare to the currently used technology/practice (incremental costs).

Are the (investments into) new technologies/practices already affordable?

*Mandatory-Field; Maximum Character: 500*

---

Profitability and access to finance \*

- Is the technology already profitable and the business model investment ready (please elaborate on its development stage)?
- What kind of incentive(s) (regulatory or financial) is/are needed to make the new technology/practice profitable on the market and/or to motivate end-users/investors to use or buy it?
- Are there potential investors/financial providers for the proposed technologies/practices on the market?

*Mandatory-Field; Maximum Character: 500*

---

Financial support mechanism(s) \*

Describe the **financial support mechanism** designed to facilitate investments in the proposed technologies/practices.

- What is the total volume of the financial mechanism, with the split between the proposed financial instruments?
- Briefly describe each of the proposed financial instruments and elaborate how they will contribute to scaling up the technology and transforming the market?
- How will the proposed financial instruments address the identified key challenges/barriers and enable the business model to become sustainable (being profitable without concessional funding)? Please relate your response to the key challenges/barriers as explained in section 2.1 and the overall project context.
- Are there potential interests from financial providers for the proposed financial instruments to leverage MAF funding and unlock additional public and private sector financing. Who could be potential co-investors for each financial instrument proposed? Please specify, if possible.

*Maximum Character: 1500; Mandatory-Field*

---

## 2.5 Technical assistance (TA) measures

Technical assistance (TA) measures \*

Describe the **technical assistance measures** like capacity development and training, infrastructure support, resource provision, technical advisory services, data and technology support etc.

- What technical assistance measures does the project plan to implement (list the key activities)?
- How do the proposed measures address the needs of the target group(s)?
- How will the proposed measures contribute to gender equality and social inclusion?

*Maximum Character: 2600; Mandatory-Field*

---

## 2.6 Embedding

Please describe how your project aligns with and supports national climate goals and policies, such as emissions reduction targets and Nationally Determined Contribution(s) (NDCs). Additionally, explain how the project integrates with relevant sectoral policies (e.g., energy, transport, waste, or water) to ensure that it complements and reinforces existing national efforts.

National climate policy context & sector policies \*

- Please explicitly describe the relevance of the project and the (sub-)sector for the implementation of NDCs.
- Please describe the current (sub)-sector policy and development plan.

*Mandatory-Field; Maximum Character: 1500*

---

Related initiatives, programmes and projects \*

Please list and briefly describe other previous or ongoing projects / activities in the (sub-)sector targeted.

*Maximum Character: 1500; Mandatory-Field*

### 3 Project Ambition

#### 3.1 Potential for transformational change

Transformational Change has the following definition at the Mitigation Action Facility: *“Catalytic change in systems and behaviours resulting from disruptive climate actions that enable actors to shift to carbon-neutral pathways”*.

Please describe the potential for transformational change regarding the categories as listed below.

Demonstration effect \*

How will the project ensure systemic dissemination of key lessons and results to promote long-term stakeholder buy-in?

*Maximum Character: 800; Mandatory-Field*

---

Catalytic effect and systemic change \*

- How will this project achieve a catalytic effect to trigger broader, long-term impacts beyond its immediate scope, such as inspiring similar initiatives, influencing policy changes, or attracting additional resources and partnerships?
- How will this project promote systemic change in terms of promoting new market behaviour and economic incentives, catalysing a shift in values, and securing long-term political support?
- What developments/regulations does the project trigger to accelerate or initiate sector development towards a carbon-neutral pathway?

*Maximum Character: 800; Mandatory-Field*

---

Replicability/scalability \*

In this section, describe how your project can be replicated or scaled to increase its impact. Explain any elements that make it adaptable to other regions, contexts, or communities (replicability), and outline any

strategies or potential for expanding its scope within the same context or at a higher level (scalability). Highlight if the project model is simple to reproduce, cost-effective, or aligns with broader policies or resources. This information helps assess the potential for your project to generate wider benefits beyond its initial implementation.

- Does the project envisage and enable a scaling up on national/regional level or a replication in other sectors/countries? How will the project achieve this?
- Is the project's technology/practice relevant and applicable to other contexts? How will the project support this transfer?

*Maximum Character: 800; Mandatory-Field*

---

#### Sustainability \*

How will the project make a lasting and impactful change and does the project significantly and permanently reverse the flow of funds, creating a permanent shift in financial priorities in the country/sector (public budget, private investments) towards a carbon-neutral development pathway?

*Maximum Character: 800; Mandatory-Field*

---

### 3.2 Financial ambition

#### Description of financial ambition \*

Please describe the project financial ambition, i.e if and how the project and its proposed financial instruments will mobilise (i.e. leverage) additional funding (beyond requested MAF funding) for the ambitious mitigation project proposed. Please provide an estimated timeline to achieve this ambition.

- Why are the proposed financial instruments selected and how will they best optimise potential investment flows? Please briefly elaborate for each financial instrument proposed (approach, financial sector potential, financial stakeholders, etc).

*Mandatory-Field; Maximum Character: 1000*

---

Financial contribution by public sector (incl. potential in-kind contributions) \*

*This field is mandatory; in case no contribution is foreseen, please enter 0*

in EUR

*Float number; Mandatory-Field; Minimum Value: 0*

---

Potential public sector contributors

Please list the potential public sector contributors and clarify if preliminary discussions have already taken place.

*Maximum Character: 400*

---

Financial contribution by private sector \*

*This field is mandatory; in case no contribution is foreseen, please enter 0*

in EUR

*Float number; Mandatory-Field; Minimum Value: 0*

---

Potential private sector contributors

Please list the potential private sector contributors and clarify if preliminary discussions have already taken place.

*Maximum Character: 400*

---

Financial contribution by other donors \*

*This field is mandatory; in case no contribution is foreseen, please enter 0*

in EUR

*Float number; Mandatory-Field; Minimum Value: 0*

---

Potential other donors

Please list the potential other donors and clarify if preliminary discussions have already taken place.

*Maximum Character: 400*

---

### 3.3 Mitigation potential

Mitigation potential in tCO<sub>2</sub>e \*

What is the envisioned GHG mitigation potential in tCO<sub>2</sub>e (rough conservative estimate, a range of values “from XXX tCO<sub>2</sub>e to XXX tCO<sub>2</sub>e” is acceptable) of the project over the implementation period?

Please estimate the mitigation potential based on actual units that will be installed through the financial mechanism during the duration of the project.

Guidance Document: Mitigation Action Facility Mitigation Guideline for Project Concept Phase  
([https://mitigation-action.org/wp-content/uploads/Mitigation-Action-Facility\\_Mitigation-Guideline-for-Project-Concept-Phase.pdf](https://mitigation-action.org/wp-content/uploads/Mitigation-Action-Facility_Mitigation-Guideline-for-Project-Concept-Phase.pdf))

in tCO<sub>2</sub>e

*Mandatory-Field; Whole number/integer*

### Methodology and calculation \*

Please briefly outline the methodology including the formula to calculate the mitigation potential.

*Maximum Character: 600; Mandatory-Field*

---

## Questionnaire

Your responses to these questions have no influence on the assessment of the Project Concept.

### Application process and information sharing

How did you learn about the Call for Projects? \*

only one selection is allowed

- Website of the Mitigation Action Facility
- Newsletter of the Mitigation Action Facility
- NDCP website / in-country facilitator
- Professional network
- Other

*Mandatory-Field*

---

How satisfied are you with the process of submitting a Project Concept? \*

only one selection is allowed

- 1 (completely dissatisfied)
- 2
- 3
- 4
- 5 (completely satisfied)
- I don't know/I don't wish to answer

*Mandatory-Field*

---

What would you recommend improving in the Project Concept template and/or submission process? \*

*Mandatory-Field; Maximum Character: 400*

---

Do you agree that information provided in this Project Concept is shared with selected other funding programmes such as the GCF if this project is not selected for support by the Mitigation Action Facility? \*

only one selection is allowed

Yes

No

*Mandatory-Field*

---

Do you agree to have your submission (e.g., country, sector) listed on the Mitigation Action Facility website? \*

only one selection is allowed

Yes

No

*Mandatory-Field*

## Consent to the Storage of Personal Data

### Data storage

With your consent, you agree that the Mitigation Action Facility may retain your application information for the following periods:

- up to ten (10) years after the termination of the funding contract if a funding contract is concluded.
- up to ten (10) years after the rejection of the application if the application is rejected.

The retention serves the following purposes if a funding contract is concluded:

1. Internal evaluation of projects throughout the duration of the project to identify best practices and make them available to future Applicants;
2. Reporting on the development effectiveness of the Mitigation Action Facility to its Board throughout the duration of the project;
3. Enabling us to prevent multiple funding.

If an application is rejected, it is retained to allow us - in subsequent funding rounds – to track which Applicants have already submitted a funding application before and for what reasons it was rejected.

Consent can be withdrawn at any time by sending an informal message to [contact@mitigation-action.org](mailto:contact@mitigation-action.org) (mailto:contact@mitigation-action.org) with effect for the future without giving any reasons.

We may then no longer retain your information where it is not subject to any statutory retention obligations (when a funding contract is concluded, generally up to ten (10) years after termination of the contract; in the case of rejected applications, generally for the period of the regular limitation period of ten (10) years from the end of the year in which the application was rejected).

The withdrawal does not affect the lawfulness of the processing carried out up to that point. You can find further information in our privacy policy ([https://oap.mitigation-action.org/data\\_privacy\\_policy](https://oap.mitigation-action.org/data_privacy_policy)).

Consent to the storage of your data \*

only one selection is allowed

We hereby consent to the data storage beyond the statutory retention rights as described above.

We do not agree to the data storage beyond the statutory storage rights as described above.

*Mandatory-Field*

---

Submission of a Project Concept

multiple selections allowed

I understand that after submitting the Project Concept, I will not be able to edit or modify it.

---

Completeness of data \*

multiple selections allowed

I confirm the completeness of data provided and agree to the further processing of this Project Concept by the Mitigation Action Facility.

*Mandatory-Field*

---
