

# Call for Projects 2024 of the Mitigation Action Facility

[Title of the application]

## Useful tips & links

When filling out the form in the Open Application Platform (OAP), please consider the following:

- Do not copy-paste tables into the OAP text fields.
- Do not copy-paste graphs into the OAP text fields.
- Avoid using special characters (e.g., ‘, “, :, ü) as they may not be displayed correctly.
- Bullet points/numbering will not be displayed correctly, as the system does not capture paragraph breaks.
- Formatting (e.g., highlighted text; text in bold, italics, or underlined; subscript, superscript) will not be displayed.
- Each space is counted as one character; paragraph breaks are not counted as characters, as they are not captured by the system and are not displayed.

In case of any technical difficulties, feel free to reach out to [oap@mitigation-action.org](mailto:oap@mitigation-action.org)

## General Information Document (GID)

Read the [General Information Document](#) (GID) to learn more about the Call for Projects 2024.

Have you read the General Information Document (GID)? \*

Yes, I have read the General Information Document (GID) and understand the conditions, process and criteria for assessing and selecting projects under the Mitigation Action Facility Call for Projects 2024.

*Mandatory-Field*

---

## 1 General Information

### 1.1 Project Data

Project title \*

Max. 100 characters

*Maximum Character: 100; Mandatory-Field*

Country (or countries) of implementation \*

multiple selections allowed

Afghanistan  Angola  Bangladesh  Benin  Bhutan  Burkina Faso  Burundi  Cambodia   
 Central African Republic  Chad  Comoros  Democratic Republic of the Congo  Djibouti  Eritrea   
 Ethiopia  Gambia  Guinea  Guinea-Bissau  Haiti  Kiribati  Lao People's Democratic Republic  
 Lesotho  Liberia  Madagascar  Malawi  Mali  Mauritania  Mozambique  Myanmar   
 Nepal  Niger  Rwanda  Sao Tome and Principe  Senegal  Sierra Leone  Solomon Islands   
 Somalia  South Sudan  Sudan  Tanzania  Timor-Leste  Togo  Tuvalu  Uganda  Yemen   
 Zambia  Democratic People's Republic of Korea  Syrian Arab Republic  Algeria  Belize  Bolivia   
 Cabo Verde  Cameroon  Congo  Côte d'Ivoire  Egypt  El Salvador  Eswatini  Ghana   
 Honduras  India  Indonesia  Iran  Kenya  Kyrgyzstan  Micronesia  Mongolia  Morocco   
 Nicaragua  Nigeria  Pakistan  Papua New Guinea  Philippines  Samoa  Sri Lanka  Tajikistan  
 Tokelau  Tunisia  Ukraine  Uzbekistan  Vanuatu  Viet Nam  West Bank and Gaza Strip   
 Zimbabwe  Albania  Argentina  Armenia  Azerbaijan  Belarus  Bosnia and Herzegovina   
 Botswana  Brazil  China (People's Republic of)  Colombia  Costa Rica  Cuba  Dominica   
 Dominican Republic  Ecuador  Equatorial Guinea  Fiji  Gabon  Georgia  Grenada   
 Guatemala  Guyana  Iraq  Jamaica  Jordan  Kazakhstan  Kosovo  Lebanon  Libya   
 Malaysia  Maldives  Marshall Islands  Mauritius  Mexico  Moldova  Montenegro   
 Montserrat  Namibia  Nauru  Niue  North Macedonia  Palau  Panama  Paraguay  Peru   
 Saint Helena  Saint Lucia  Saint Vincent and the Grenadines  Serbia  South Africa  Suriname   
 Thailand  Tonga  Türkiye  Turkmenistan  Venezuela  Wallis and Futuna

*Mandatory-Field*

Sector focus \*

Please select the priority sector your project is linked to. If you apply with a cross-sector project, please indicate the priority sector your cross-sector project is linked to.

only one selection is allowed

Industry

Transport

Energy

*Mandatory-Field*

---

Envisioned funding volume from the Mitigation Action Facility for project implementation \*

Indicative grant funding requested from the Mitigation Action Facility for the project implementation.

EUR 5 - 25 Million

in EUR

*Minimum Value: 5000000; Maximum Value: 25000000; Float number; Mandatory-Field*

---

Envisioned duration of the project implementation \*

Please note that the implementation should not exceed 5.5 years (= 66 months).

36-66 months

in months

*Minimum Value: 36; Maximum Value: 66; Whole number/integer; Mandatory-Field*

---

Resubmission \*

Is your application a resubmission from previous Calls of the Mitigation Action Facility?

If 'yes', please specify from which Call.

*The response has no influence on the assessment of the application.*

only one selection is allowed

No

Yes

*Mandatory-Field; Maximum Character: 100*

---

## 1.2 What is the project about?

What is the project about? \*

In a single sentence, please describe what the project aims to do.

*For example: The project supports country X in installing at least 50 MW of roof-top PV systems in low-income households and in promoting other renewable energy applications in the housing sector.*

*Maximum Character: 200; Mandatory-Field*

---

## 1.3 What will have changed at the end of the project?

What will have changed by the end of the project? \*

Please describe what the project will have changed by the end of its implementation.

*For example: Prices for small PV systems in country X will have decreased through wide availability and enhanced competition in the PV market, resulting in small PV systems becoming more affordable for certain low-income household segments without the need for further financial support. Meanwhile, the government will have expanded the coverage of its support programme to include additional RE applications and target groups.*

*Maximum Character: 400; Mandatory-Field*

---

## 1.4 National ministry / ministries

*This group of questions can be repeated 2 times*

### National line ministry

*Extend this list as appropriate. Information on up to two national line ministries may be provided.*

Name of the responsible national line ministry \*

Please indicate the name of the national ministry responsible for the sector of the proposed project.

*For other relevant Project Partners, please refer to Section 1.6.*

*Maximum Character: 100; Mandatory-Field*

---

Department \*

Within this ministry, which department is mostly leading the activities related to environment and climate change?

*Maximum Character: 100; Mandatory-Field*

---

Have any consultations with regard to the project idea been held with the line ministry? \*

If "yes", indicate what kind of consultations have taken place.

only one selection is allowed

No

Yes

*Mandatory-Field; Maximum Character: 200*

---

*This group of questions can be repeated 2 times*

**National ministry responsible for the issues of environment and climate change**

*Extend this list as appropriate. Information on up to two national ministries responsible for the issues of environment and climate change may be provided.*

Name of the national ministry responsible for the issues of environment and climate change \*

Please indicate the name of the national ministry responsible for climate change mitigation (incl. coordination of the UNFCCC process)

*Maximum Character: 100; Mandatory-Field*

---

Department \*

*Maximum Character: 100; Mandatory-Field*

---

Have any consultations with regard to the project idea been held with the ministry responsible for issues of environment and climate change? \*

If "yes", indicate what kind of consultations have taken place.

only one selection is allowed

No

Yes

*Maximum Character: 200; Mandatory-Field*

---

---

### 1.5 Applicant

Please indicate the name of the institution serving as an Applicant.

Name of institution \*

*Mandatory-Field; Maximum Character: 100*

---

Contact Person - salutation \*

only one selection is allowed

Ms

Mr

Others

*Mandatory-Field*

---

Contact Person - first name \*

*Mandatory-Field*

---

Contact Person - last name \*

*Mandatory-Field*

---

Contact Person - e-mail address \*

*Email; Mandatory-Field*

---

Contact Person – phone number \*

*Mandatory-Field; Phone / Fax number*

---

Type of institution \*

only one selection is allowed

- International
- National
- Sub-national / Local

*Mandatory-Field*

---

Legal form of institution \*

only one selection is allowed

- Non-governmental organisation (NGO)
- UN organisation
- Financial institution (incl. micro-finance institutions, multilateral/national development banks and private banks)
- Bilateral cooperation agency
- Governmental entity (incl. national ministries)
- Commercial entity

*Mandatory-Field*

---

Website link \*

Please enter a valid web address (e.g. "www.example.com" or "https://www.example.com")

*Mandatory-Field*

---

Role in the project \*

Please specify the role of the institution serving as the Applicant in the project preparation and if applicable project implementation

*Maximum Character: 200; Mandatory-Field*

---

*This group of questions can be repeated 6 times*

### **1.6 Main Project Partners**

List the national/local institutions that will play a leading role in the preparation and implementation of the project.

*Extend this list as appropriate. Information on up to 6 Project Partners may be provided.*

Name of institution \*

*Mandatory-Field; Maximum Character: 100*

---

Type of institution \*

only one selection is allowed

- International

National

Sub-national / Local

*Mandatory-Field*

---

Legal form of institution \*

only one selection is allowed

- Non-governmental organisation (NGO)

UN organisation

Financial institution (incl. micro-finance institutions, multilateral/national development banks and private banks)

Bilateral cooperation agency

Governmental entity (incl. national ministries)

Commercial entity

*Mandatory-Field*

---

Country \*

*Mandatory-Field; Maximum Character: 100*

---

Role of institution in the project \*

*Mandatory-Field; Maximum Character: 200*

## 2 Project Concept

### 2.1 Starting situation

Starting situation \*

Please briefly outline the starting situation.

*Maximum Character: 1500; Mandatory-Field*

---

### 2.2 Barrier analysis

Barrier analysis \*

Please describe **what is blocking the situation from changing**.

List and describe - in the order of importance - **the key barriers** that are preventing a transformation of GHG emission trends in the sub-sector and/or sectors targeted by the project. Together, the barriers should, at a minimum, cover the following areas: economic, financial, technical, regulatory, behavioural/cultural, and structural.

*Maximum Character: 2200; Mandatory-Field*

---

### 2.3 Project rationale

*If you're targeting a piloting modality according to chapter 6 of the [General Information Document \(GID\)](#) please explain what the pilot stage of the project will entail and what scope it will have.*

Objectives of the project \*

Outline the project's objectives (impact(s) and outcome(s)). Please describe what will have changed in regard to the starting situation at the end of the project.

*Maximum Character: 1000; Mandatory-Field*

---

### Scope of the project \*

Define the project's intended scope.

- Which share of the (sub-)sector does the project intend to target? How does this relate to the overall GHG emission reduction potential in the (sub-)sector?
- How would the intended scope induce a change towards sustainable carbon-neutral development in the (sub-)sector in the country?

*Maximum Character: 1800; Mandatory-Field*

---

### Target group(s) \*

Define the target group (e.g. public actors such as municipal authorities, employees of governmental institutions etc.; private sector, incl. informal sector; households, etc.).

- Indicate estimated numbers of people / households targeted by the project.
- Consider specifically the situation of the informal sector as well as opportunities / challenges for promoting gender equality.
- What will have changed for the target group(s) as a result of the project? Please explain on a general level as well as in regard to your project's contribution to gender equality and social inclusion.

*Mandatory-Field; Maximum Character: 1300*

---

## 2.4 Proposed mitigation technologies / practices

If you're targeting a piloting modality according to chapter 6 of the [General Information Document \(GID\)](#) please clearly explain the novel technology, describe experiences with it in the country of implementation and / or globally.

Proposed mitigation technologies / practices \*

Describe the **mitigation technologies / practices** to be supported.

- Elaborate on technical features (e.g. capacities, size) of the proposed technology / practice? Is the proposed technology / practice available on the national market? If you are piloting a novel technology, please clearly state that and explain the technology.
- Are there any experiences and pilots with regard to the proposed technology / practice in the country where the project is to be implemented? If so, describe briefly these experiences and / or pilots. If there are no experiences in the country of implementation, please explain your assumption why the technology / practice will work in the proposed country of implementation.

*Mandatory-Field; Maximum Character: 2000*

---

Rationale for the selection of the proposed mitigation technology / practice \*

Please explain why the technology / practice is suitable to achieve the desired GHG emissions mitigation effect in comparison to the business-as-usual as well as alternative mitigation technologies / practices.

*Mandatory-Field; Maximum Character: 1000*

---

## 2.5 Financial mechanism and business case / model

Business case / model related to the proposed technologies / practices \*

Describe the **business case / model** related to the proposed technologies / practices.

- Why and how will the business model work (investments and interest from the private and public sector)? In particular, how will the funding from the Mitigation Action Facility facilitate and

stimulate the development of a market for the proposed mitigation technology / practice? Please relate your response to the market barriers listed in section 2.2 and the overall project context.

- If the information is available at this stage, what are the capital (CAPEX) and operational (OPEX) costs of the proposed technology / practice and how do they compare to the currently used technology / practice (incremental costs)? Are the (investments into) new technologies / practices already affordable?
- What kind of incentive(s) (regulatory or financial) is needed to make the new technology / practice competitive on the market and/or to motivate end-users / investors to use or buy it? How are investments into the currently used technologies / practices financed? Would the same apply for the new technologies / practices proposed by the project?

*Maximum Character: 2200; Mandatory-Field*

---

Financial support mechanism(s) \*

Describe the **financial support mechanism** designed to facilitate investments in the proposed technologies / practices.

- What financial mechanism will the project be operating with? Describe briefly each of the proposed financial instruments and its envisioned role in transforming the market? What is the intention with regard to the identified barriers and business models? Please relate your response to the market barriers listed in section 2.2 and the overall project context.
- What will be the total volume of the financial mechanism? How will it be split between the proposed financial instruments?

*Maximum Character: 1500; Mandatory-Field*

---

## 2.6 Technical assistance (TA) measures

Technical assistance (TA) measures \*

Describe **technical assistance measures** targeting regulation and/or the policy framework conditions and other activities (capacity development, awareness raising etc.).

- What technical assistance measures does the project plan to implement (list the key activities)?
- How do the proposed measures relate to the identified barriers and business model?
- How do the proposed measures address needs and / or behavioural barriers of the target group(s)?  
How will the proposed measures contribute to gender equality and social inclusion?

*Maximum Character: 2600; Mandatory-Field*

---

## 2.7 Embedding

National climate policy context & sector policies \*

- Please describe the relevance of the project and the (sub-)sector for the implementation of Nationally Determined Contribution(s) (NDCs).
- Please describe the current (sub)-sector policy and development plan.

*Mandatory-Field; Maximum Character: 1500*

---

Related initiatives, programmes and projects \*

Please list and briefly describe other previous or ongoing projects / activities in the (sub-)sector targeted.

*Maximum Character: 1500; Mandatory-Field*

### 3 Project Ambition

#### 3.1 Potential for transformational change

*Transformational Change has the following definition at the Mitigation Action Facility: “Catalytic change in systems and behaviours resulting from disruptive climate actions that enable actors to shift to carbon-neutral pathways”. Please describe the potential for transformational change with regard to the categories as listed below.*

Demonstration effect \*

How will the project ensure systemic dissemination of key lessons and results to promote long-term stakeholder buy-in?

*Maximum Character: 800; Mandatory-Field*

---

Catalytic effect and systemic change \*

- How will this project achieve a catalytic effect?
- How will this project promote systemic change in terms of promoting new market behaviour and economic incentives, catalysing a shift in values, and securing long-term political support?
- What developments / regulations does the project trigger in order to accelerate or initiate sector development towards a carbon-neutral pathway?

*Maximum Character: 800; Mandatory-Field*

---

Replicability / scalability \*

- Does the project envisage and enable a scaling up on national / regional level or a replication in other sectors / countries? How will the project achieve this?
- Is the project’s technology / practice relevant and applicable to other contexts? How will the project support this transfer?

*Maximum Character: 800; Mandatory-Field*

---

#### Sustainability \*

How does the project significantly and permanently reverse the flow of funds in the country / sector (public budget, private investments) towards a carbon-neutral development pathway?

*Maximum Character: 800; Mandatory-Field*

---

### 3.2 Financial ambition

#### Description of financial ambition \*

Please provide a description of the financial ambition of the project, specifically for each of the following categories: public sector, private sector, other donors.

*Maximum Character: 600; Mandatory-Field*

---

#### Financial contribution by public sector (incl. potential in-kind contributions) \*

*This field is mandatory; in case no contribution is foreseen, please enter 0*

in EUR

*Float number; Mandatory-Field*

Financial contribution by private sector \*

*This field is mandatory; in case no contribution is foreseen, please enter 0*

in EUR

---

*Float number; Mandatory-Field*

Financial contribution by other donors \*

*This field is mandatory; in case no contribution is foreseen, please enter 0*

in EUR

---

*Float number; Mandatory-Field*

### 3.3 Mitigation potential

Mitigation potential in tCO<sub>2</sub>e \*

What is the envisioned GHG mitigation potential in tCO<sub>2</sub>e (rough conservative estimate, a range of values “from XXX tCO<sub>2</sub>e to XXX tCO<sub>2</sub>e” is acceptable) of the project over the implementation period?

Please estimate the mitigation potential based on actual units that will be installed through the financial mechanism during the duration of the project.

in tCO<sub>2</sub>e

---

*Mandatory-Field*

Methodology and calculation \*

Please briefly outline the methodology including the formula to calculate the mitigation potential.

---

*Maximum Character: 600; Mandatory-Field*

---

## Questionnaire

Your responses to these questions have no influence on the assessment of the Project Concept.

### Application process and information sharing

How did you learn about the Call for Projects 2024? \*

only one selection is allowed

- Website of the Mitigation Action Facility
- Newsletter of the Mitigation Action Facility
- NDCP website / in-country facilitator
- Professional network
- Other

*Mandatory-Field*

---

How satisfied are you with the process of submitting a Project Concept? \*

only one selection is allowed

- 1 (completely dissatisfied)
- 2
- 3
- 4
- 5 (completely satisfied)
- I don't know/I don't wish to answer

*Mandatory-Field*

---

What would you recommend to improve in the Project Concept template and/or submission process? \*

*Maximum Character: 100; Mandatory-Field*

---

Do you agree that information provided in this Project Concept is shared with selected other funding programmes such as the GCF if this project is not selected for support by the Mitigation Action Facility? \*

only one selection is allowed

Yes

No

*Mandatory-Field*

---

Do you agree to have your submission (e.g., country, sector) listed on the Mitigation Action Facility website? \*

only one selection is allowed

Yes

No

*Mandatory-Field*

## Consent to the Storage of Personal Data

### Data storage

With your consent, you agree that the Mitigation Action Facility may retain your application information for the following periods:

- up to ten (10) years after the termination of the funding contract if a funding contract is concluded.
- up to ten (10) years after the rejection of the application if the application is rejected.

The retention serves the following purposes if a funding contract is concluded:

1. Internal evaluation of projects throughout the duration of the project to identify best practices and make them available to future Applicants;
2. Reporting on the development effectiveness of the Mitigation Action Facility to its Board throughout the duration of the project;
3. Enabling us to prevent multiple funding.

If an application is rejected, it is retained to allow us - in subsequent funding rounds – to track which Applicants have already submitted a funding application before and for what reasons it was rejected.

Consent can be withdrawn at any time by sending an informal message to [contact\(at\)mitigation-action.org](mailto:contact@mitigation-action.org) with effect for the future without giving any reasons.

We may then no longer retain your information where it is not subject to any statutory retention obligations (when a funding contract is concluded, generally up to ten (10) years after termination of the contract; in the case of rejected applications, generally for the period of the regular limitation period of ten (10) years from the end of the year in which the application was rejected).

The withdrawal does not affect the lawfulness of the processing carried out up to that point. You can find further information in our privacy policy ([https://oap.mitigation-action.org/data\\_privacy\\_policy](https://oap.mitigation-action.org/data_privacy_policy)).

Consent to the storage of your data \*

only one selection is allowed

We hereby consent to the data storage beyond the statutory retention rights as described above.

We do not agree to the data storage beyond the statutory storage rights as described above.

*Mandatory-Field*

---

Submission of a Project Concept

I understand that after submitting the Project Concept, I will not be able to edit or modify it.

Completeness of data \*

I confirm the completeness of data provided and agree to the further processing of this Project Concept by the Mitigation Action Facility.

*Mandatory-Field*

---
